

Park Shore Pre-School Curriculum

What Sets Park Shore Pre-School Apart From All the Rest

Park Shore offers a wide range of academic and social experiences to prepare children for all future endeavors. Unlike other pre-school programs, our focus is on a balanced literacy program enhanced by our on-staff reading consultant. Our hands-on learning experiences in math and science will encourage our students to become life-long learners. Park shore continues to give our students the most fulfilling academic and social experiences.

Specialized Teaching Programs Increase Learning and Promote Education

Our "SEE" (Specialized Enrichment Experience) program incorporates fun-filled and challenging learning opportunities within traditional classroom settings providing the ultimate educational experience. To meet the changing statewide curriculum standards, Park Shore has introduced this enrichment program inclusive of all our students. Three and four year old children experience extended academic activities with a weekly focus on developing their problem solving and critical thinking skills. Each week is focused on a specific topic consistent with our already well-established thematic units. Our objective is to further enhance the concepts and skills your children will need to be successful in their future learning endeavors. Our students partake in enriching activities in reading, writing, phonics, math and science in a fun filled and challenging learning environment. Classroom teachers extend the concepts in their classrooms to further enhance the learning experience.

Skilled and Experienced Teachers and Staff Create an Ideal Pre-School Learning Environment
Our Staff Create the Ideal Pre-School learning Environment

With the supervision of Dianne Vitucci, our full-time Education Director, Park Shore Pre-School offers one of the best pre-school programs and facilities in the area. While teaching our students the skills needed to excel academically, we impart to them a true love of learning, a sense of accomplishment, strong self-confidence, allowing each child to express their own uniqueness and creativity.
